FOR YOUR ENTIRE SCHOOL

Move & Learn

We provide support with:

- Culture & Ethos:** behaviour change strategies that enable leaders & teachers to establish movement in their settings & enrich learning experiences.
- Approaches:** ideas for integrating movement purposefully into & between learning.
- Resources:** low cost/no cost resources to facilitate movement in & beyond the classroom.
- Environments:** ideas to adapt your physical & social environments to promote movement.

Improving Learning & Reducing Sedentary Time

Why Move & Learn?

We can show evidence from research & practice that **movement** in the **learning** process improves **academic outcomes** for **children & wellbeing**.

We can outline **purposeful & manageable** ways to support teachers to **integrate movement** into their **lessons & across the school day**.

*Reducing sedentary time is one of three key physical activity recommendations of UK Chief Medical Officers' which leads to these wide ranging benefits.

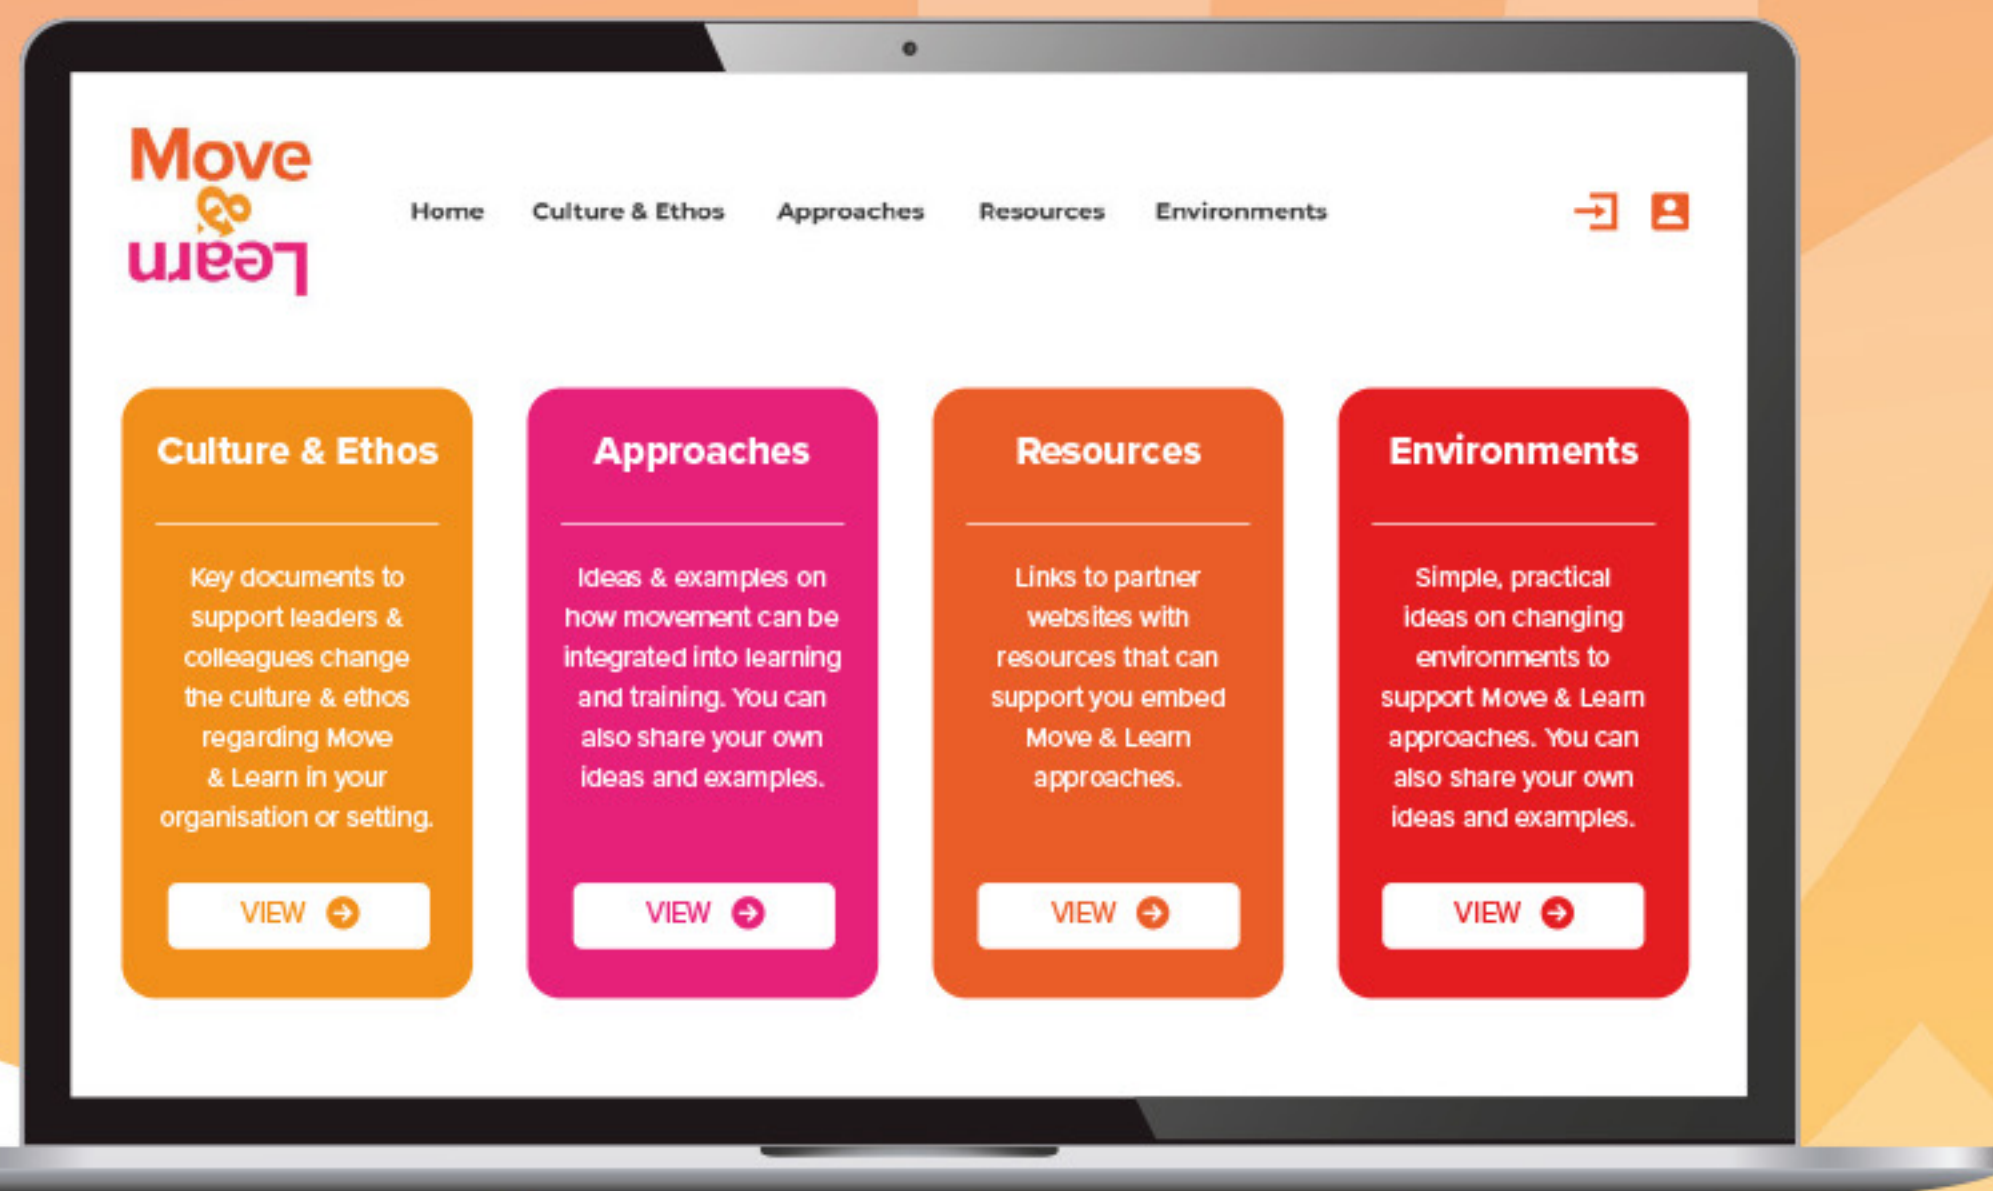

Why work with us?

We have wide ranging experience as school leaders, teachers, trainers & coaches - working with 100+ schools. Pioneering organisations recognise the impact of our programmes:

“Our vision to be a wholly active school is continually evolving. Being involved with the Move & Learn team has driven change and will continue to do so, ensuring that the benefits of physical activity and developing ‘good habits’ early is a crucial part of our school vision.”
Paula Manser, Assistant Head, Birkby Infant School.

Move & Learn Offers

Online Toolkit

Our **collaborative** toolkit is for:

- Schools & teachers.
- Initial Teacher Training providers & their students.

It provides:

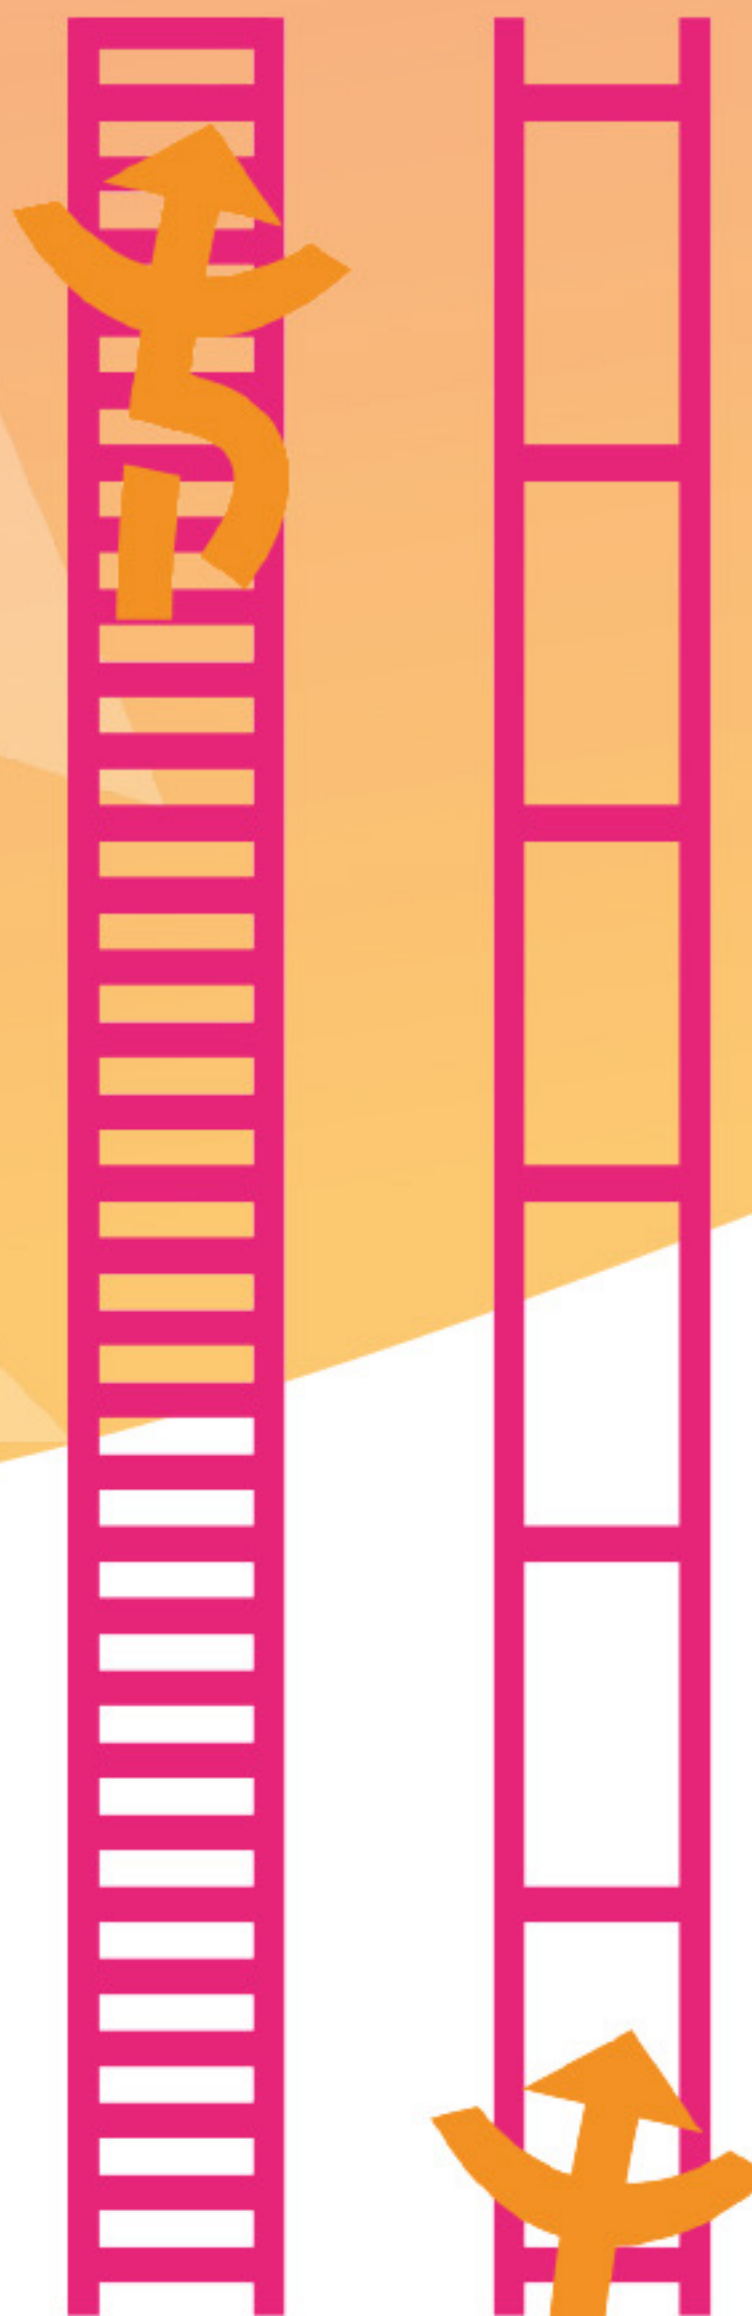

- Practical support & examples to embed Move & Learn into settings.
- An online community of practice - enabling users to share successes & supporting resources to inspire & enable others.

Subscription for the whole school or organisation is free for a year if part of our teacher leadership programme or Initial Teacher Training network. Otherwise, the annual subscription is only £190.

We reward schools who invest in our collaborative approach. Reductions for subsequent subscriptions are available for schools and teachers that share their progress.

For example:

- £140 in year 2 if your school submits at least 5 approved examples.
- £50 if you become a Move & Learn champion school.

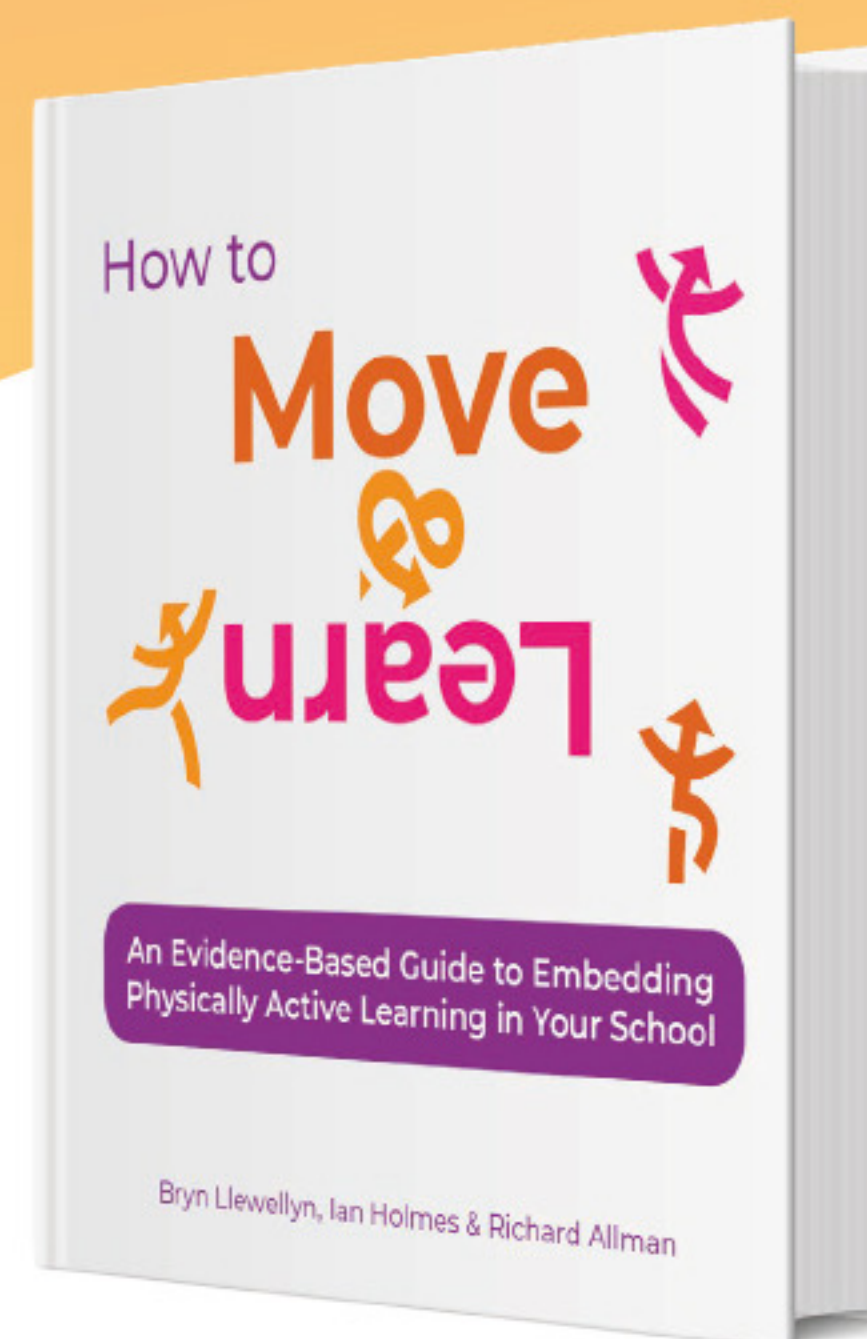

small steps
big difference

Our Leadership Programme empowers staff to effectively lead on Move & Learn, ensuring improvements in both the quality of education & the personal development of all.

Conferencing & Networking with keynotes & workshops for both general teaching and PE & Sport conferences. Our own annual conference enables a genuine community of practice.

Coaching & Mentoring bespoke to your setting and can focus on supporting teachers and/or leaders with Move & Learn, or more general teaching and learning school priorities.

Our Book supports all our evidence-based programmes, with reflective Questions & Tasks after each chapter for both staff meetings & training.

“ This persuasive book will help those who want schools to be fit for purpose and your young people fit for learning.

Mick Waters, Professor of Education, University of Wolverhampton
